

Datenbank-Update für vollautomatischen Arbeitsablauf

Das Datenbank-Update 2024 ist verfügbar.

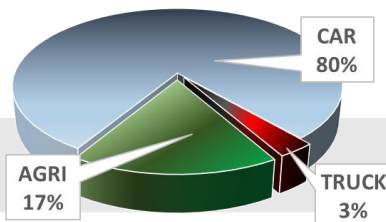

Nur eine aktualisierte Datenbank ermöglicht einen vollautomatischen Arbeitsablauf des Klimatechservicegeräts und vermeidet zeitaufwändiges Suchen nach Kältemittelmengen. Die neue Datenbank wird mit den neuesten Modellen und zusätzlichen Informationen aktualisiert. Die vollständige Liste der in der Datenbank 2024 enthaltenen Fahrzeuge ist in AC-Service24 verfügbar.

- **5.396** Fahrzeuge von **99** Herstellern
- 4.306 CAR, 922 AGRI, 168 TRUCK
- **9%** neue Modelle
- CAR: **3.289** Modelle für **R134a**, 1.017 Modelle für **HFO**
- Steigender **HFO-Anteil**: **24%** aller Fahrzeuge, **56%** der nach 2020 gebauten Fahrzeuge
- 90% mit Angaben zur **Ölmenge**
- PAG Viskosität: **92% PAG46**, **6% PAG100**
- Modelle von 1970 bis heute. **49% sind ab 2010**
- Die Datenbank ist europäisch und australisch. Während der Menüführung können das gewünschte geografische Gebiet ausgewählt und angezeigt werden.
- «Benutzerdefiniert»: Für benutzerdefinierte Datenbanken oder fehlende Fahrzeuge ist das Menü des Klimatechservicegeräts mit der Schaltfläche «CUSTOM» ausgestattet. Dies ermöglicht, Daten nicht einzufügen, sondern manuell in einem vorgesehenen Verzeichnis zu vervollständigen, was den Vorteil bietet, dass jene Daten auch mit der folgenden Datenbankaktualisierung beibehalten werden.
- Einige Autohersteller installieren spezielle Klimaanlage in einigen Versionen ihrer Autos. Die Menge des Kältemittels kann je nach System, Kompressorhersteller oder im Falle eines zusätzlichen Kondensators variieren. Je nach Speicher und Anzeigetyp des Klimatechservicegeräts werden diese Informationen direkt auf dem Display angezeigt. Andernfalls wird ein Index angegeben, der diese Informationen angibt. Die Legende dieses Index steht in AC-Service24 zum Download zur Verfügung.

News in 2024

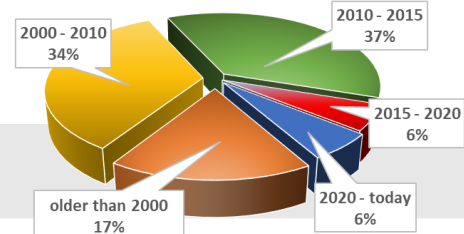

5.396 models / 99 manufacturers

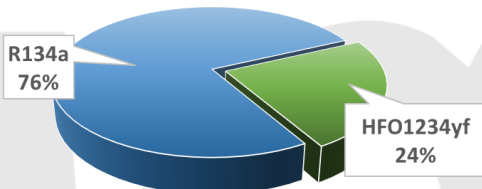

Models by refrigerant type CAR

Models' history from 1970

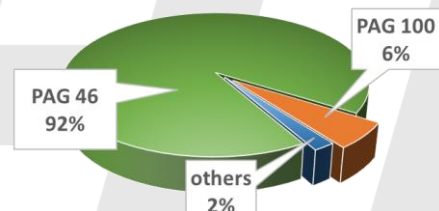

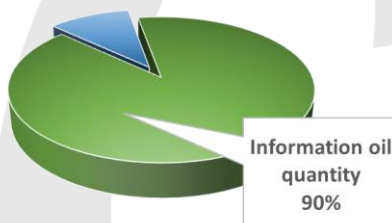

Models by refrigerant type after 2020

Models with indication oil quantity

PAG viscosity indication
